WE ARE NIJDAM.

WE ARE NIJDAM!
Nijdam was founded in 1896 and initially started as a small-scale, family-run business. Starting with wooden, buckle-on ice skates, Nijdam grew exponentially during the 60's and 70's while manufacturing different models of ice skates. Since Schreuders Sport International acquired Nijdam in the 90's, we've gradually expanded the collection. We included inline skates, skateboards, (stunt)scooters, protective gear and much more to ensure all-year fun!

At Nijdam, we're all about bringing the skate life to everyone, no matter your age or skill level. Our mission is to inspire skaters of all levels, from beginners to advanced, young and old. We want to make everyone feel welcome, regardless of their level or background.
